About UKG

Founded in 2009, UKG offers high quality guardianship and education services throughout the UK. Our main aim is ensuring all students have a safe and enjoyable time in the UK, while reaching their full academic potential.

Choosing to study abroad is a very important and life changing decision and it can take time for many students to feel comfortable in their new surroundings. We believe that by developing strong and trusting relationships with the students in our care, they will gain the most out of their experience in the UK. Students' welfare is a top priority and all students are assigned a dedicated Guardianship Coordinator and given an emergency phone number which is available 24/7.

UKG is a friendly and dedicated international team of professionals with excellent knowledge and experience working with international students studying in the UK. All of our staff and partners are carefully selected to guarantee high standards of provision.

We take our clients' feedback seriously and are committed to providing a high quality service to all of our students in a secure and caring environment. We are always one step ahead, able to predict students' and clients' needs and offer practical and relevant services.

Accreditation

UKG is proud to be an accredited member of AEGIS, the Association for the Education and Guardianship of International Students.

University Guardianship

Students who are under the age of 18 and wish to study in a university or college in the UK usually need an appointed guardian to act on their behalf during term time and university holidays if their parents are overseas. UKG is recognised by all universities and colleges in the UK and we are recommended by various institutions including UCL, UEL and KCL.

The UKG University Guardianship package meets university and visa regulations, while allowing students to keep their independence with the knowledge that their dedicated Guardianship Coordinator is available 24/7 in cases of emergency.

Homestays and Transfers

UKG provides homestay accommodation throughout the UK with friendly and caring families who offer a 'home away from home' for students. We match students as closely as possible to the family in terms of their experience, interests and location.

Most boarding schools in the UK close during half terms and many have exeat weekends where students are not allowed to stay in the school. On these occasions, host families located close to the school or in another city in the UK are the ideal solution. UKG can also arrange long-term accommodation for students attending day schools or universities.

Our host families are given training and support including advice on health and safety and safeguarding matters. When staying with a host family, students are accepted as a family member and gain insight into the British way of life in a happy and supportive environment.

For transfers between the school and airport/host family, UKG has a team of designated and reliable drivers. Travel by rail and coach can also be arranged for economical long distance transfer. UKG will check timetables, book tickets and arrange for an escort if required.
